***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 C.F.R.1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-22 and 24-34 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 34-68 of U. S. Patent Application, 09/804,848. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1-22 and 24-34 of this application are similar in scope to claim 34-68 of the previously mentioned application, 09/804,848 with obvious wording variations.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

4. Claims 26-30 and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 26-30 and 32 are all depended upon a cancelled claim, claim 23.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-22, 24-25, 31 and 33-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Feng et al. (WO – 01/87014).

Regarding claims 1-3 and 22, Feng et al. disclose a binaural hearing device set (Fig. 2), comprising: a pair of hearing devices (33a/b); and a communication link (27a/b) between said

pair of hearing devices, wherein said communication link comprises a pair of body electrodes (33) for establishing an electrically conductive communication path by using the body of an individual wearing said binaural hearing device set as an electrical conductor (Fig. 1), each of said pair of hearing devices comprises an electrical to mechanical output converter (24a/b). But Feng et al. do not clearly teach that said communication link further comprises at least one single wire as claimed. Since providing a wire for partially forming the communication link for a binaural hearing device is very well known in the art, it therefore would have been obvious to one skilled in the art at the time the invention was made to be motivated to provide a suitable conductive wire for the communication link as an alternate choice, in order to reduce undesirable interference and noises, and also to make the communication link more stable under certain circumstances.

Regarding claims 4-7 and 24, Feng et al. further disclose the hearing device, wherein said communication link further comprises an electronic unit (410) and two single wires (Fig. 12) respectively connectable to said hearing devices (30a/b) on one side and to said electronic unit on the other side.

Regarding claims 8-12 and 25, Feng et al. do not clearly teach that said electronic unit comprises a wireless transmitter/receiver unit as claimed. But Feng et al. do teach the electronic unit connected to a database (490), and providing a suitable access link for an electronic unit to access a database is very well known in the art. Therefore, it would have been obvious to one skilled in the art at the time the invention was made to be motivated to provide a suitable access link, such as a wireless link for the device, in order to access database effectively.

Regarding claims 13-21 and 31, Feng et al. do not clearly teach for the details of the electrode as claimed. Since providing a suitable electrode, especially those commercially available electrode for the communication link is very well known in the art. Therefore, it would have been obvious to one skilled in the art at the time the invention was made to be motivated to provide a suitable electrode, such as a plate type electrode for the device, in order to provide the communication link efficiently and effectively.

Regarding claims 33-34, Feng et al. further disclose the hearing device, wherein the hearing devices are ITE or OTE hearing aid devices (Figs. 3 and 5) as claimed.

*Response to Amendment*

6. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

*Conclusion*

7. Applicant's amendment necessitated the new grounds of rejection. Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P. § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
